About me

I am a passionate BTech Computer Science student with interests in web development, cloud computing, and Python programming. I enjoy exploring new technologies and applying my skills to real-world projects. Outside academics, I stay active with football, workouts, and playing the guitar. I thrive on challenges and constantly seek opportunities to learn and grow.

Education

Bharatiya Vidya Bhavan, Class 10	2019
• Percentage- 91	
Bharatiya Vidya Bhavan, Class 12	2021
• Percentage- 89	
SRM University	2025
• CGPA-8.6	

Experience

Prodigy Infotech, Web Development Intern (Remote)	Oct 2023 - Nov 2023
• Developed responsive web applications using HTML, CSS, and JavaScript.	
• Designed user-friendly interfaces and integrated API services for enhanced functionality.	
• Managed project repositories with GitHub and followed best coding practices.	

Projects

AI Driven Cloud Based Emotion Recognition Sytsem

- Developed an AI-driven emotion recognition system using a hybrid CNN-Attention model for enhanced accuracy.
- Deployed on AWS cloud utilizing EC2 instances for computation and S3 for scalable storage.
- Improved real-time emotion detection through deep learning and cloud-based optimization.

Zoom Clone

- Developed a globally synchronized desktop calendar with integrated meeting scheduling and video conferencing.
- Implemented dynamic room creation with peer-to-peer connections for secure and high-quality video calls.
- Built a responsive UI with EJS and managed real-time updates using Express.js.

Weather App

- Developed a weather application using Node.js and OpenWeatherMap API for real-time weather updates.
- Designed a clean and user-friendly interface with HTML/CSS to display temperature, weather conditions, and other relevant details.
- Integrated Express.js and Axios for efficient API handling and secure data retrieval.

Skills

Programming Languages: C++ , C, Python, HTML, CSS, JavaScript

Web Development: Node.js, Express.js, React.js, Next.js

Databases: SQL, MongoDB

Cloud Computing: AWS, Azure
